SURVEY NOTES

- This 9-Unit Planned Residential Survey has been compiled from field surveys and record evidence and the following plats recorded in the Town of Richmond Land Records:
 - "Plat of Survey, Lands of Marvin D. & Tina-Marie Carpenter," prepared by Albert W. Harris, LS, dated 10/10/89 and recorded in Slide #63.
 - "Boundary Line Adjustment between Edmund & Susan Wells and Betty Preston," prepared by T. Bass Land Surveys, Ltd., dated May 2007, and recorded in Slide #115.
 - "Survey for Betty Preston," prepared by T. Bass Land Surveys, dated April 1998, and recorded in Slide #92.
- North orientation (basis of bearings) is based on survey grade RTK (Real Time Kinematic) GPS observations made on 12/15/11 utilizing a Trimble R8 GNSS receiver. The transmitting base station used was the Richmond CORS (Continuously Operating Reference Station) station. The resultant horizontal datum is NAD 83 (CORS). The vertical datum is based on NAVD 88 using the geoid model G03U09.
- The improvements shown hereon were located by a survey on the ground completed on 12/15/11 and 5/8/12.
- Survey methods employed and the resulting error of closure/precision ratio, met or exceed the minimum precision requirements for suburban surveys as outlined in "Standards for the Practice of Land Surveying" adopted by the Vermont Board of Land Surveyors effective 1/7/13.
- The measurements and information produced by this survey and shown hereon may contrast from recorded survey information due to differences in orientation, declination, or methods of measurement.
- The premises shown and described hereon maybe subject to existing buried utilities, easements, rights-of-way, restrictions, covenants, permits, regulations, and/or setback lines which may not be recorded in the public records. Only deeds, plats, and plans of public record, which are properly indexed in the Town of Richmond Land Records have been reviewed, examined and utilized for the purpose of this survey. Clear evidence of an easement or restriction of record or evidence of easements and structures, which are readily apparent from a casual aboveground view, are delineated hereon. No liability is assumed by the undersigned for any loss associated with the existence of any undiscovered easements or restrictions on the use of the property, which are not shown of record or are not readily apparent.
- The public right of way of Thompson Road and Cochran Road is assumed 3 rods (49.5 ft) as provided under Vermont Statute Title 19, Chapter 1, and Section 32. "A roadway width of one and one half rods on each side of the center of the existing traveled way can be assumed and controlled for highway purposes whenever the original survey was not properly recorded, or the records preserved, or if the terminations and boundaries cannot be determined." Right of Way limits shown hereon are based on recovered monumentation and the center of the existing traveled way.
- The diameters of existing monumentation shown on this plan reflect outside diameter dimensions.
- This survey is certified to Gary & Jean Bressor and Peaceable Kingdom LLC for the purposes of creating a planned residential development as shown hereon. No liability is assumed by the undersigned for any loss that may be associated with the use of this survey other than the above stated purpose.
- Reproductions of this sketch are not valid unless sealed with a red-inked Licensed Surveyor's seal.
- This plan may not be modified in any way without consent of the preparer.
- This is an Original MYLAR.
